If you used a template or several templates (free or not) in your slideshow, please share your creations and post a link in the <a href="mailto:showcase forum">showcase forum</a>.

It's always a big pleasure for me to watch what others do with my templates. And it can give ideas to thers as well. Don't be shy.

By the way, even if you don't use one of my template, you can post a link to your work too. Thanks for sharing.
